3. Fund conversion – applicable to holders of retail share class funds only

If the net AMC is higher, we will proceed with the conversion to the clean share class equivalent unless you indicate below that you do not wish this to happen. Important information

Your current manager may impose exit charges and other costs associated with the transfer and you should assess the total charges you would incur prior to instructing any transfer. Some managers may only allow you to transfer your Junior ISA/Child Trust Fund in the form of cash and you need to know whether this would apply as you may suffer losses as a result of buying back the investments sold.

Before instructing any transfer you should examine all costs associated with the operation of this Junior ISA. Certain elements of our products may be priced differently to those of your current Junior ISA/Child Trust Fund manager.

Transfers between managers may take several weeks to complete and you may be unable to deal for a period while the transfer is pending. You should be aware that there is potential for a loss of income or growth following changes in market conditions while the transfer is being completed.
