4. Fund conversion – applicable to holders of retail share class funds only

Alliance Trust Savings will automatically convert retail share classes to new clean share class equivalents where the net Annual Management Charge (AMC) is equal or lower. If the net AMC is higher, we will proceed with the conversion to the clean share class equivalent unless you indicate below that you do not wish this to happen. A small proportion of funds do not have a clean share class equivalent. In this instance, you will remain within the retail share class.
